2012 International Table Games Awards Nomination Form

Don't roll the dice. Submit for CEM's new award series, the 2012 International Table Games Awards. We're looking for gaming industry companies that manufacture and supply great casino table games and table game products, both electronic and traditional. Each company may nominate as many products as they wish, though each individual product may only be eligible in up to two categories (below). If a product falls into more than two categories, the company must choose which category or two they wish to submit in. Additionally, any product nominated in more than two categories must have separate nomination materials, with each addressing specifically why it fits into that particular category. All products must have been introduced to the market within the past five years. There will be one winner per category. CEM will notify all companies with winning products by Feb. 1. All winners will be included in a story to appear in the March 2012 issue of *Casino Enterprise Management*, will receive a congratulatory plaque and will have the opportunity to be included in a CEM podcast. We will also be providing a small graphic image that may be used in the company's marketing materials, such as on their website or in advertising. For more information, visit www.aceme.org/TGA.
